**RE: THANK YOU**

This letter is in recognition of Atomik Interiors Inc.'s work with Chandos Construction on the Lamborghini project completed in May of 2015. This project was very schedule intensive and was delivered on time in large part due to the Atomik Interiors Inc. onsite and project management team. This team came to the table with a positive and "can do" attitude to work with the General Contractor, which played a large part in making this project a success.

Out of the box thinking to resolve challenging delivery and constructability issues on a project with such a tight timeline was critical to our success. Your cooperation was greatly valued when dealing with planning and implementation. I can appreciate how difficult it was to be working in tight spaces around the other trades and still continuing to help each other. Furthermore, Atomik Interiors Inc.'s attention to detail, quality control and assurance allowed the project closeout to happen in good time and left the building deficiency free.

On behalf of the entire Chandos Construction team I would like to thank Atomik Interiors Inc.'s role in the project and greatly looking forward to doing more projects with them in the future.

Yours truly,  
**CHANDOS CONSTRUCTION LTD.**
